UIKit

AWS

Git & GitHub

PROFILE

I am an IOS Developer with 1 year of experience. I love creating things that I can be proud of and I love building things from scratch. I speak three languages, play five instruments, and am always ready to tackle something new!

EXPERIENCE

What To Cook - Recipe Finder

Jul 2019 — Aug 2019

- An IOS app that takes in ingredients and returns recipes that use those ingredients.
- Allows you to bookmark favorite recipes and will be saved to local memory.
- Utilizes Uni-rest to do GET requests to Spoonacular food API.
- Implements JSON parsing.
- Saves data to User Defaults.
- Uses Multi-Threading with Grand Central Dispatch to update UI after API requests.

EMPLOYMENT HISTORY

Contract Mobile Developer, Fiesta To Go

Rochelle Park, NJ

Jan 2019 — Mar 2019

- Utilized Xcode and Android Studio to display online food ordering website platform through UIWebView.
- Deployed 8 WebView apps in both the Apple App Store and Google Play Store.

Real Estate Paralegal, Chan Law LLC

Cranford, NJ

Dec 2018 — Present

- Created new system for organizing business using Google Sheets and Javascript-based Google Apps Scripts.
- Designed flyers and brochures using Canva.
- Drafted legal documents like Deeds and Attorney Review Letters.

Social Studies & Music Teacher, Teach For America

Wilmington, DE

Jun 2018 — Dec 2018

- Planned and implemented grade level-specific lesson plans for 150 7th and 8th graders.
- Led parent-teacher conferences, some of which were entirely in Spanish.
- Communicated regularly with parents about student achievement and areas of growth academically and behaviorally.

EDUCATION

IOS Bootcamp Certificate, Noble Desktop

NY, NY

Jun 2019 — Aug 2019

- Learned every step of the app-building process
- Utilized Firebase to store data for class projects
- Created a photo-sharing app using AWS.

BA in Cultural Anthropology, Rutgers University

New Brunswick, NJ

Sep 2019 — May 2019

GPA: 3.6

Relevant Coursework: Computer Science 111
